Adaptive layout, programming, project build and deploy, version control, agile project managing, project planning.

HTML5, CSS3, SASS/SCSS, Bootstrap, TailwindCSS, JavaScript, gulp, GitHub,

Jira, Microsoft Project, Redmine.

EDUCATION

2016—2023
Courses & Certificates
More than 40 course certificates in the fields of UI/UX design, responsive web design, layout design, Figma software, web animation, prototyping, project management.

1988—1993
Novopolotsk Polytechnic Institute
Mechanical engineer

LANGUAGES

English — intermediate
Polish — elementary
Russian — native speaker

SUMMARY

I have over **20 years** of experience in the web industry and software development.

I have successfully implemented more than **200 design and web projects** in the field of tourism, e-commerce, and manufacturing.

I professionally use web design and development tools. I have practical experience and theoretical knowledge in the field of software development. An engineering and analytical mindset, focus on results, and the ability to self-learn help me in my work.

I am looking for opportunities to put my skills to good use in a new country.

PROJECTS

Commercial projects in which I took part as a web designer and web developer:
gutewetter.ru, tursvodka.ru, mechanization.ru, alati.ru, kubele.ru, nand.ru, electric24.market, mantera-residence.ru, mba.su, herpesclinic.ru, shkafy-kupe.ru, ciders.ru, pfi-cons.ru, progbi.ru, expo-eurasia.ru, auto-diagnost.ru, intourmarket.ru, vernoe-delo.ru, automotozip.ru, cranetruck.ru, finotchet.ru, anchortrain.ru, digging.ru, akc.ru, battour.ru, skylifts.ru, tyazhelovoz.ru, optimized.ru, eurodom.ru, rentatex.ru, samosvaly.ru, at-consulting.ru, colins.ru, excavating.ru, intergid.ru, manipulyatory.ru, sodexo.com, novieokna.ru, audar.ru, specialisty.ru, happy-feet.ru, naftan.by, promoting.ru and many more.

WORK EXPERIENCE

Marketing Agency "Promoting"
Head designer, web developer
10/2004 — current

- I am engaged in designing the structure of web representations (portal, website, online store, landing page), developing web page design, user interface (UI) design, and studying the functionality of the interface (UX). I develop a visual concept and corporate identity from a logo to document templates.
- As an art director, page designer, UI/UX designer, and layout designer, I developed the tourist portal "Tursvodka" <www.tursvodka.ru> from concept to final front-end programming. Developed the portal logo, templates for social networks, and advertising layouts for printing. The task of creating one of the largest tourist portals in the region has been solved.
- Developed the website of the largest manufacturer in the region "GuteWetter". Created concept, design, illustrations, UI/UX, and front-end programming. Developed a design system for a mobile application and designed the interface with its prototyping. The problem of integrating the production of a product and its implementation with the help of an electronic catalog and an online product constructor has been solved.
- Designed and developed (logo, web design, UI/UX, responsive layout) a voluminous portal catalog by order of construction equipment "Mechanization".
- Developed interface design and user interaction design, programmed the behavior of interface elements, and the interaction of form elements of online stores Alati, Kubele, and many others. Designed templates for social networks.
- Developed of the concept of redesign and adaptability of the complex website of the MBA business school. The logo was also designed.
- Participated in the development of advertising web projects (design, layout) of international companies Sodexo and Collin`s.

OJSC "Naftan" (oil refinery plant)
Leading software engineer
12/1997—10/2004

- I have developed the first version of the structure, design, and client side of the corporate site <www.naftan.by> and the websites of the structural divisions of the enterprise. That allowed at that time the largest oil refinery in Europe to have a representation on the Internet. My design work is still being used there.
- Developed design templates for PowerPoint presentations and poster design for the company's monthly economic reports to the Government of the Republic of Belarus.
- Developed the design of promotional materials (posters, presentations, stickers on product packaging, billboards).
- Developed and implemented more than 40 automated workstations and software products for construction and repair logistics, and product registration from order to price calculation.
